

# Monash University Medical Graduates of 1974

40 Years Reunion - Ballarat, November 2014

# Organising Committee

## THE COMMITTEE MEMBERS

CHAIRMAN	Jim Mullany
COMMITTEE	Steve Fryman Coral Thompson Jane Fyfield Rod Bond Marilyn Bond Rick Lowen Peter McLaughlan

Special thanks to Lesley Mullany and Coral Thomson, who did lunches and Jim Dejong who helped design and set up the Web page and for his advice on I.T. Also a thanks to Marilyn who instructed Jim on how to make a cup of tea.

# Chairman's Report

What a great time we had. There were of course a few glitches, but otherwise the proceedings went smoothly. Forty years in medicine is a major milestone for us, worthy of a notable event.

Our Friday night venue at Craig's Royal Hotel 'Grand dining room' was a fitting prelude to our weekend. The Saturday talks were well received and in particular the results of Bruce Waxman's survey, which is included in the magazine, together with the link. Thanks to our other fine speakers, Don Howie, George Skowronski and Esta Papier and Mike Gronow.

On Saturday afternoon, some played tennis, some went to the fine arts gallery, and others just mingled and caught up at the local coffee shops.

The Saturday night Gala dinner held in the restored mechanics institute (oldest remaining in Australia) was a grand affair, followed by a very late night for some, with further drinks and merriment at Craig's.

119 of us were at the Sunday brunch (including 69 graduates), a larger turnout than we have had for many a reunion. The local Ballarat Courier newspaper came to record the event.

I thank all on the committee (Jane Fyfield, Steve and Coral Fryman, Marilyn and Rod Bond, Rick Lowen and Pete McLaughlin). A great deal of effort was put into organising the event, being a little more difficult than other reunions as we had several venues. Without the IT and audio visual work of Steve and Coral, it would not have been as successful or as colourful. Both also laboured many weekends, with Steve, Coral and myself being the magazine committee. Thanks to Bruce Waxman for his great survey, and Jane for her report and all others who gave valuable input. Rod was a fine MC on Saturday night and Rick and Steve chaired the Saturday talks with great finesse.

Leaving Melbourne, to have the reunion in Ballarat was quite different, but obviously no barrier to having a marvellous time. We are an unusually cohesive cohort group, cementing old special friendships. I am told there are some more recent graduate groups who have no reunions, and if they do, there are only a handful who are interested in renewing old acquaintances.

We have included an update on graduates. Apologies if some pictures are not there. This is due to space or tech. factors. Photos not included in this magazine are on archive. Keep us informed of contact changes, if you can, via email at 2014@mumus74.com. A copy of this magazine is also available to download from our website at [www.mumus74.com](http://www.mumus74.com) at a later date.

Jim Mullany  
Chairman

Previous Chairpersons	10th reunion	Peter McLaughlin
	20th	Rick Lowen
	25th, 30th, 35th	Richard Gilhorne
	40th	Jim Mullany

Above: Peter McLaughlin  
Right: Previous  
chairpersons with Rob  
Heston and Jane Fyfield

## Auteri, Sam

GP, Married to Ronda

Sam is still in general practice at Casey Medical Centre in Cranbourne, which he established in 1978. His most recent field of interest is anti-aging medicine. He must be getting old himself, as he was made a Life Member of the RACGP in 2012! He has no plans to retire, and will probably "die on the job". When he is not on duty, he enjoys working on woodwork projects in his shed.

He is still married to Ronda (43 years) and is father of Chiara (specialist in Family Law), Lauren (G.P. in Sydney), Rhys (studying screenwriting) and Simon (working in international cricket management in London). Most excitingly, he has four grandchildren Ella 3, Zoe 2, Daniel 2 and Sophie born in July. He LOVES being their Nanna.

## Bond, Rod and Bond, nee Fooks, Marilyn

Consulting Physician, wife Marilyn

Now down to 1-2 days per week in Medical Oncology Practice, enjoying farm, golf and travelling, and marvelling in our first grandchild Archie.

### Marilyn Fooks

Self-employed Ultrasonologist, husband Rod. Hopefully by the reunion weekend I will have been retired for a day. After 30 years of O&G practice, the last 10 performing ultrasounds, I will have closed my busy practice in Geelong. Our three girls are all doctors - 2 medical (Infectious Diseases physician and trainee physician) and one with a PhD in Agriculture. It's time to spend time with Archie, our grandson, and enjoy our farm and travelling.

Rod, travelling with (from right to left) Richard Gilmore, John Mackenzie, Pat Elliott, Pete Lucas, Bill Longworth, Dave Serini and Jim Mulvaney in Africa.

## Brace, Grant

Hi All,

It's been a busy 40 years and they have flown! Just celebrated our 40th working anniversary, Margaret and I.

I have 3 children and 6 grandchildren so family functions are wonderful. My internship was at Prince Henry's Hospital followed by a resident year at HANCI. I then entered the anaesthesia training program finishing in 1981.

I am still working, both in private practice and as a visiting anaesthetist at the Austin where I've been since 1981. I am doing less clinical work but with more teaching and academic work. At the Austin I run a workshop for trainees in complex airway management.

Currently I sit on the Victorian Surgical Consultative Council as ANZCA representative. In the last few years I have had a number of articles and clinical practice guidelines published and have presented at several meetings including the Annual Scientific Meeting of my College, ANZCA with more presentations to come.

I have been interested in voluntary work with 4 aid trips to Vietnam focusing on the correction of congenital facial deformities. Margaret and I have travelled extensively in Europe in recent years, the favourites being the UK, France and Italy. I enjoy gardening, cabinet making, working with stone and modern languages, in particular, Italian. I have returned to my bicycle recently.

A minor hiccup this year, in the form of urgent coronary stenting, temporarily slowed me down, but I am now better than ever. I will work for a little longer but with more breaks.

Best wishes,  
Grant Brace

PS Off to Hong Kong for a meeting so will not be able to attend the reunion.

## Bradfield, Simon

Anaesthetist, wife Linda

Member of Anaesthetic Services (Epworth) since 1981. Large upper limb practice. Special interest in ultrasound guided nerve blocks.

Married to Linda since 1978. Three sons- Nick (34), Louie (30) and Alex (25). Nick married Zdravka 2012 and expecting first child 2015.

## Brewster, Pam and Smith, Bryan

Pam is a Psychiatrist in private practice and Bryan is a GP. Pam's working halftime in Balwyn as a private psychiatrist. Bryan is in general practice in Viewbank.

Three grown-up children, one grandchild (more please!). Still just fit enough for some leisurely walking, cycling and cross-country skiing.

## Brunton, Steve

Primary Employment Role:

Physician and Medical Educator Company: Primury Care Education Consortium

I have had 38 years of adventure in the US since leaving Oz in 1976 for what was to be a short stint in the US on my way to the UK. I have worked in several post graduate training programs and currently had a medical education company developing programs for physician's continuing education. In June 2013 I married the love of my life Roxanne Williams, a successful but mostly retired architect. This will be her first trip to Australia. I have too many children, but all are doing well, happy and American.

## Buckley, Paula

GP, husband Peter Leverett

After 2 years residency at Hox Hill Hospital, Paula completed her GP Training in Sydney. She obtained her FRACGP in 1982 and has been an examiner for the College for the past thirty years. Paula married Peter Loveroll in 1981 and they have three adult children.

Since 1995, Paula has worked in Crestwood Family Practice, and is an owner of the general practice. Both show my family, the wedding one is from May 2012 when my son Nick was married. The graduation one is from 2014. Looking forward to catching up with you all at Ballarat, and hope to see lots of 'old' faces there. Love Paula.

Paula with old friend Bob Wickett

## Byrne, Neville

Neville Byrne specialised in Occ. Health while working for Qantas in Sydney in the 60s, then joined British Airways in London for 20 years. Now works part time, freelance, based in Surrey, England. Well travelled and loves tennis, Bridge, walking, reading and Spanish. Currently president of IAPOS, a doctors group interested in overseas health. Married 31 years to Janet, with children, Jessica, Becky and Scott.

## Cain, Nial

Nial Cain Respiratory Physician, married to Catriona

## Conway, John

GP, wife Margie

Have lived the Sunshine Coast Qld for the last 12 years.

GP Part time and loving it. Happily married to Margie with 3 adult children

Interests: Wind surfing, Boating, Radio-controlled planes and travel

## Coulton, Peter

Peter Coulton, G.P. Melbourne married to Patricia

## Cousins, Vince

ENT, Head of Unit 2, The Alfred Hospital, wife Margaret

Married to Margaret. Three adult children. Four beautiful grandchildren.  
Keen cycle touring, some golf.

ENT Training in Melbourne 1980 to 1983.

Fellowships in London and Germany 1984 to 1986.

Private practice in Melbourne in Otolaryngology and Lateral Skull Base Surgery 1986 to present.  
Head of ENT-Otology Unit, The Alfred Hospital- Current

Past Federal President, Australian Society Otolaryngology Head and Neck Surgery  
Past RACS roles include Council Member, Senior Examiner in ENT, Chair Academy of Surgical Educators. Regular surgical skills teaching and conference faculty roles in China and Europe.

From the left: Vince Cousins, Peter Landolt, Victoria Jurek, Neil Kearney (Charles Laurie), Mary Cousins.

## Elliot, Pat

Partner, Jacquo.  
Haematologist.

## Faigen, Mark

Working in suburban General Practice in East Malvern since 1987. Working full-time special interests in skin cancer surgery, obstetrics (only doing shared care) and a little cosmetic medicine.

I have two children from my marriage, who are living out of home. I have re-partnered and my "second family" comes with three children and two grand-children. Still a "golf tragic" - playing fairly regularly and spend time in the garden and on my bike when I can.

## Freeman, Annie

General Practice

Happy Mother of 3, grandmother of 3. For the past 12 years have been working in general practice in rural areas, mainly Barham and Deniliquin in NSW.

I plan to continue locum work in rural and city Australia.

## Fryman, Steve and Thompson, Coralyn

Both in General Practice. We got married at the end of 5th year, and survived our first year of marriage doing final year! After graduation we went to Rockhampton Base Hospital for our Intern year, great experience, adjusted to the Queensland culture!

We went to Geelong for our second year, planning to return to Melbourne after one or two years, but Geelong grows on you and 38 years later we are still there!

We're both working four days now (mostly). We've had some overseas trips, but for the last 14 years we have been going Outback for a month or so each winter. We've had some great trips to all the great spots Australia has to offer - Simpson Desert, Kimberley, Cape York, and feel we are very lucky to be able to see such beautiful places. We have two children David and Julia, both living in Geelong, and have two grandchildren, Will and Joe.

We enjoy our work, and are not planning retirement at this stage. We'll probably keep up with the 4 days for at least the next few years and then plan to reduce to 3 days/week at some stage.

## Fyfield, Jane

Aged Care Consultant, Husband David Rocco.

I am very fortunate to have had and still have a very varied medical career. Over time I made a conscious decision to pursue a working life committed to improving the health and social outcomes for older people, either as individuals or a population. My academic studies and ongoing education have supported this commitment.

I have been a Medical Director of an aged care organisation, a national advisor in health strategy and gerontology for DVA, taught biostatistics and epidemiology for undergraduates, taught in TAFE courses and provided consultancy services to many public, private and not for profit health and aged care services and government departments. My work this year has taken me from Melbourne and country Victoria, to other states and as far as the Indian Ocean Territories.

I am a Board Director of Southern Cross Care (Victoria), and the Sir Edward Dunlop Medical Research Foundation, and I am a member of the Policy and Planning Committee of the Australian and New Zealand Society for Geriatric Medicine and a member of the Victorian Executive Committee of the Australian Association of Gerontology. I am also a Committee Member of Musica Viva Victoria.

I enjoy my family and their sporting achievements among other things. David (husband) runs marathons and son Jonathan (who has recently graduated from Monash, but not medicine!) is an Ironman. I just walk and swim.

I like to catch up with friends and the extended family, go on holidays, read and garden. I would like to do more travel.

## Gilhome, Richard

Consulting upper G.I.T. surgeon in partnership with two other surgeons.

Ray McHenry and I have worked together for 31 yrs.

Major work is in bariatrics.

Very challenging and rewarding to see patient lose their weight and become active in society.

I will be retiring in 2018.

## Goy, Peter

General Practice, Wife Sue

General practice since 1976, Shepparton Victoria, mostly, 10 years in Port Fairy. Sue still putting up with me.

2 kids now 35 and 33. One a nurse, and the other a pharmacist.  
Life is good! Keen on GP still after some hiccups in the past.

## Gronow, Mike

Practice as O&G Reproductive Medicine, Royal Women's Hospital, Melbourne IVF, Married with two daughters and one grandson

## Guppy, Des

Paediatrician  
Des with Marilyn Borrd (nee Fooks)

## Halasz, George

Consultant Child and Adolescent Psychiatrist and Adjunct Senior Lecturer at Monash University

## Hetzel, Rob

Working as half-time country GP in Gisborne + some work as an executive coach.  
Spend plenty of time playing tennis, golf and bridge and grandparenting 3 grandchildren and travelling. Basically having a ball.

## Hewson, Peter

Paediatrician, now retired. Long history of research prior to his retirement, was an Associate Professor

## Howie, Don

Professor of Orthopaedics and Trauma, University of Adelaide, Partner Oksana Holubowycz  
Clinical Director, Orthopaedic and Trauma, University of Adelaide since 1989, and Co-  
Director, Centre for Orthopaedic & Trauma Research (COTR), University of Adelaide Came  
from Warrnambool to Flinders Medical Centre over 30 years ago

Partner for 25 years, Oksana Holubowycz

Interests with partner- diving, golf, skiing Two daughters, and four grandchildren aged  
between 8 years and 1 week

Research Interests and Clinical Practice- Joint Replacement Research, bone resorption,  
young hip disorders, joint replacement and revision surgery, osteotomies

## Hunt, Campbell

Still in General practice in the Eastern Melbourne suburbs

## Hunter, Ian

GP, partner Sue

Ian is now semi retired, working part-time in rural general practice on the Tasman  
Peninsula in Tasmania

## Ho, David

Still in General practice in the Mills St Clinic in Middle Park

## Kaminsky, Al

Radiologist, wife Gail

Still happily married Both kids still at home. Still working (3 days/week). Still renovating  
Still sailing, learning French and travelling

## Kenna, Clive

Working almost full time consulting in both musculoskeletal and occupational medicine - both in Melbourne and in Sydney, where I taught at the University

Married with kids-who come and go still stay in touch with a group from the year and same from my school years-which is even older

Interests-walking, swimming, wine and travel- seeing different cultures and societies reflected in their values

## King, Rosie nee Wharton

General Practice, husband Robert

Part-time GP for 40 years, close to retiring. Married 42 years with 4 kids and 1 gorgeous granddaughter. Same Rob! Life gets busier

## Kong, Betty (Norella) and Khalid

I hope you all recall Betty and Khalid. We were a pair from our first year in Medicine (1969). We both returned home (after obtaining our MBBS and also FRACP) in 1982 and have helped produce more Malaysian graduates in Medicine, both undergrad and postgrad. We are both Professor Emeritus - me in Nephrology and Khalid (BAK) in Endocrinology. Our 3 sons studied in Australia. Looking forward to catching up

## Lee, Harold

I came to Melbourne as a 17 y.o. student from Darwin in 1969. I spent two early years as a resident at PANCH and married in 1978 to the best girl in the world, Elizabeth and I travelled to Bedford, England for 18 months, then returned to work in Shepparton, Northern Victoria. We have three sons, all grown up and a daughter in law and a grand-daughter. I have retired from General Practice in the last year.

Epilogue: Missing work but not the stress, looking forward to the next 63 years of useful life.

## Longworth, Bill

General Practice, wife Marilyn.

Moved from own general practice of 33 years- "up the road" to a 13 man practice. Hours cut down to 4 1/2 days a week - moving means holidays

Not likely to retire for a few years yet. Married to Marilyn- 4 grand kids and one on the way

## Lowen, Rick

Rick Lowen feels blessed that his career has allowed him to practice in so many areas of medicine and locations. After completing hospital residency and marrying Lorelei, that career has transitioned from rural procedural general practice to emergency medicine and hospital administration with intermittent simultaneous dalliances with forensic medicine, counter disaster medicine and expedition medicine. Lorelei & Rick had 3 kids together, and have 2 grandchildren from Lorelei's first marriage. Sonia now resides in Stuttgart Germany and teaches English to corporate clients. Jeremy & Daniel run a small specialty coffee house in Olinda (in the Dandenong Ranges) called "Little Lixir" which produces the best colico on the mountain if you're ever heading that way. Zach, Donna and our 2 grandsons live in Brisbane.

Lorelei retired from nursing 1.5 years ago and has no trouble filling in her free time with jewellery making, exercise, walks with her friends, baking for the boys' cafe, laughter clubbing & choir singing. Rick has slowed down fractionally, and spends much of his time in a car commuting to the various rural hospitals where he undertakes DMS work as well as on the inspirational Nuerim North property where we go to chill out. Retirement for Rick will come when he runs out of steam, ceases to enjoy his work or becomes irrelevant to it - sometime in the next 5 years he's guessing.

## Lucas, Peter

Geriatrician (Private Practice), wife Jenny

Geriatrician in Bayside Area Melbourne. Nearly a geriatric - will be by Reunion date. Married 40 years since end of 5th year. Daughter Amanda married with a son 6 and daughter 4. Son Mark living in New York working for Goldman Sachs, married, no children. Unfortunately golf handicap increasing. Many thanks to hardworking organisers. We look forward to the weekend very much.

## Mackenzie, John

John Mackenzie - Married to Pam, and this year moved back to East Brighton.

Semi-retired since phasing out of Tyabb general practice in 2008, and now enjoying rural locums at King and Flinders Islands. Playing golf handicapped by thickening waist and thinning hair.

Expecting first grandchild in February 2015.

## Marsh, David

General Practice, Wife Clair

## Marshall, Geof

Geof moved to Sydney after graduation in 75. Worked there until 1980 then Caroway/Rutherglen as GP until 1987.

After that combined short training program and assumed role as Director of ED at Bathurst NSW until now. His main working interests have been in acute care medicine, teaching, and forensic medicine.

Two academic appointments over 20 years have occurred plus involvement in two courses teaching emergency skills to other doctors.

More recently the last seven years have included training in clinical forensic medicine (via Monash) and practice in that field.

Surprisingly the last two years have also included medical administration.

He and Cathy have three children all married with good jobs and academic qualifications but none doing medicine.

Cathy is a GP/academic, Lucy is a professor of Engineering at UNSW, Sarah is business analyst, Nick is computer person.

The most recent pleasure has been his 3.5 grandchildren with lots of involvement in family lives and they have dual living in Sydney and Bathurst.

There has been a lot of international travel undertaken over the years mostly in Europe and US but no extended stays.

This will continue unless St Kilda is back in the finals.

Retirement is possible in the next year or so or perhaps a part time job doing something else. Admin is difficult.

Forensic med is great but sporadic.

## McLaughlin, Peter

Since the last reunion, I have basically left private practice. Now have a full-time appointment at Monash medical centre as a consultant physician in General Medicine and also Respiratory Medicine. Married to Jane (Still) - 40 year anniversary coming up. Three children, all married and two grandchildren. I am trying to keep fit with gym, tennis and golf and ? bridge. Maybe I shall work for a few more years.

## McCormick, Howard

My wife Helen and I had our 40th Wedding Anniversary last year and are still delighted to be married to each other.

I still work 4 days a week in General Practice at two of the 17 clinics I'm part owner of - Wonthaggi and Cowes. I'm still enjoying work, and plan to keep going until I'm 69. We also have travel and charity goals that need to be paid for - to have and experience in 101 countries around the world by 2020 and to support 101 charities in at least 20 countries. After this current trip we will be up to 75 countries.

## Mckimm, Rob

After three years in Geelong, I took off overseas, first to the UK and then to NZ, then back to Melbourne to complete training in O&G. After 30 years working in East Gippsland, I resigned from Hospitals and University, closed the practice and intended to "semi-retire", doing casual locums around Australia. I now work one third of the year as Flying O&G in outback Queensland, and I'm having almost as much fun as in those wonderful years 1969-74.

## Menogue, Nigel

MedicoLegal Consultant, now retired from clinical medicine, wife Amanda

Graduation in 2000 with a Masters Degree in Sports Medicine yielded a career change after 25 years as a GP. Experience in Aviation and Underwater Medicine (a legacy from my Navy days) started a new career in Sports Medicine. This was augmented with Rugby Union, Women's Basketball and Fencing.

More recently trips to NT delivering services to indigenous groups primarily in Musculoskeletal Medicine have been most fulfilling.

Now retired from Clinical Medicine, I am enjoying a new direction in MedicoLegal Medicine mostly as an assessor for the Motor Accident Authority of NSW assessing injuries from Motor Vehicle Accidents.

Personally, now with more free time, finally able to give the "Bucket List" a good kick with Amanda.

Socially, three of our four children are married and we are proud grandparents of 3 grandchildren.

Eleanor works with Amox with marketing, Stuart is a Urology Registrar, Thomas is a Cathay Pilot, and young Stephanie is enjoying a year in Whistler, Canada.

## Mullany, Jim

I have been a Radiologist in Ballarat for the last 25 years. I have had a great career. The first day I began I really liked Radiology and the best part is that I still like it after all these years and a million chest Xrays later. I attempted retirement a few years ago but went back to work, probably related to the C.L.G syndrome ("Can't Let Go syndrome") and now do 3-4 days a week and NO CALL. I shall attempt another retirement in a year or so.

My wife Lesley is a retired Ballarat home wares Retailer. We have a gorgeous daughter, Alexandra aged 20 doing teaching at the local uni. I still like old cars, collect stamps and coins, travel and we have a small country property to play with on the weekends. I volunteer 3 weeks a year to work in developing countries and I've got the reunion Chair. So we have lots to do.

## Mutimer, Kieran

I have just opened up a café in Iluka with my partner Aaron and we are pretty busy. All the best to old friends and colleagues and a warm invitation to all to drop in for a cup of the best coffee in the Lower Clarence on your road trips north.

## Ng, Seng

Ng Seng Tang looks after students and staff at Monash University Health Service Helen works from home. Helena is a Geriatrician with Southern Health Network. Solonia is Strategic Nuclear Energy Development and Projects Manager in France.

## Ong, Aik

Partner Diana

Working part-time at Monash University Health Service Caulfield Campus. Spending most of our time enjoying the four grandchildren (ages 4 months to 5 1/2 years). Rather mundane - except for the MUMPS (Monash University Medical Poker Society) meetings!

## Papier, Esta

Psychiatrist, Husband Alan Webberley. Generally continue with clinical psychiatric practice but trying to downsize it. Building up a medico-legal practice instead.

Still married to Alan. Our son Aidan, now graduated from Uni. We all survived. Life fairly uneventful. Wanting to do more travel.

## Parkes John

John Parkes works as an Occupational Physician with national responsibility for the Workplace Health Division of Medibank Health Solutions. He has a subspecialty interest in the occupational aspects of colour vision and has his own comprehensive colour vision testing laboratory. He has reviewed occupational colour vision standards for a number of national and state organisations. John is still active in the Navy Reserve. He and his wife Kaisu, are enjoying their two little grand daughters.

## Poon, Peter

I had spent most of my early life in big cities and had no experience of the country, so the rural town of Nathalia was quite a change for me, but since I arrived here 37 years ago I have enjoyed the medical experience of a 'country' practice. Nathalia is a small but friendly community and my work is respected and people are grateful for what you can offer. My job is not only working in the medical practice and local hospital, but I have been heavily involved in passing on my experience to medical students and junior doctors. Now I even enjoy my career more as I am in the process of retirement and currently am working five sessions per week.

Over recent years, Julie and I have done a lot more travelling, both within Australia and overseas as our "children" have grown up and are independent of their parents. I am still a keen golfer with my biggest achievement being able to hit a hole in one three years ago.

## Poppenbeek, Ralph

Master's degree in Public Health 1995  
Fellow of the College of Physicians 2007 (FAFOEM (RACP))  
Previously professional musician and singer (cabaret, jazz and opera)  
Collected over 60 classic cars - now content with small collection  
Also content with one wife and two small dogs

## Riess, Colin

Private Consultant Psychiatrist  
After a long career in public practice (Director of The Bouverie Centre for 20 years), I have been in private practice (mainly psychotherapy) since 2008. I work 4 days per week. I teach trainee psychiatrists through Melbourne Uni and consult at RMIT E&U. Julie and I are almost empty nesters, our son has moved to the UK to follow heart and work options. Oldest daughter has just successfully completed her paediatric (medical) exams and our youngest daughter is exploring film making. We spend all the weekends we can find at our cottage at Inverloch. I enjoy singing in a few choirs and love my bangers.

## Robinson, Mark

GP at Student Health University of Melbourne, Wife Jane

In 2006 after 28 years working Mt Beauty/Falls Creek Victoria, Jane and I moved to live and work in Canberra. In 2010 we moved to Kew in Melbourne to be closer to our grandchildren.

Our son Jorge has 2 boys, Max and Jesper and our daughter Pip has two girls, Minnie and Lotte. I now work as a GP at Student Health, University of Melbourne 3 days a week. We have a holiday home on the Bellarine and recently I had a 17 foot trailable yacht (Bayraider 17) built in Tasmania. It is a wooden boat, we sail on Port Phillip Bay. It is my major pre retirement hobby. The offspring and grandchildren love the beach and water. I still follow Collingwood. Jane and I enjoy good health, punctuated by an overseas holiday most years.

We have 4 grand children, our son Jorge has 2 boys Max (4) and Jesper (2) and our daughter has two girls Minnie (5) and Lotte (4). Pip is due on ?? Nov with number 3.

## Rosen, Nigel

Chris and I married the week after graduation. I found residency at Box Hill daunting and was able to transfer to Mildura which opened the door to country practice over the next 20 years both in Echuca and Bendigo. We returned to Melbourne where Chris studied theology and ordained a priest in the Anglican Church. Our three children are happily married and our six grandchildren are a big enjoyment in our lives. Currently working a four day week in a large partnership practice in Frankston and loving it!

## Rosengarten, Phil

General Paediatrician, wife Lyndall.  
Still happily married (40 years) with 3 sons and 2 grandchildren.  
Still working in private paediatrics in my rooms most days.  
Still teaching and examining students and overseas trained doctors.  
No longer involved in administration, politics and management.  
No longer covering hospitals at any hour of the day and night.  
No longer hanging out for retirement as happy working like this.  
Generally grateful for my lot.

## Salmon, John

VMO Obs Gyn, Albury-Wodonga Hospitals, wife Lizette.  
VMO in private group practice Obs Gyn at Wodonga Hospital since 1989. Remarried 2000.  
Lizette, we have two children 14 and 12 y.o.

Still enjoying clinical practice 3 days/week. On call and senior lecturer UNSW Rural Medical School. We spent 2011 at the Fiji School of Medicine as a Senior Lecturer.

## Sawyer, Nigel

Still living on the Murray at Mildura. Retired from solo G.P. practice last year. Now doing day locum work locally one month in three.

Three children, all have left home. Two Grandchildren are in Saudi Arabia and one grandchild is locally. I entertain myself with gardening, golf, travel, movies and watersports. My family is active and healthy.

## Senini, Dave

Still full time GP in Dingyoy. Ongoing farm with Angus Cattle.

## Sholl, David

F.T. Public Child and Adolescent Psychiatrist

## Skowronski, George

Intensive Care Physician, wife's name Lorraine

I am currently working a bit over half-time, split between public and private practice. The rest of my time is spent as a part-time Uni student (back to the future)- I'm part-way through a Masters degree in bioethics, which I'm really enjoying. Also travelling a bit this year we've done about 3 weeks in Vietnam, Laos and Cambodia, which was great. I also have some business interests which take up a bit of time, and I'm still struggling to learn golf, which I take up periodically and then totally neglect, so I'll always be pretty useless. Maybe when I retire.... Wife Lorraine is also at Uni, studying history, and also still working part time as an ICU nurse. Our 3 kids all live outside Sydney (Canberra, Adelaide and Vietnam at the moment), so we spend a bit of time visiting them and our 3 grandchildren.

## Slavutin, Lee

Lee Slavutin has been in the life insurance business since 1983. Born in Australia, Lee practiced as a surgical pathologist until he came to New York as the chief resident in pathology at Lenox Hill Hospital where he worked as a staff pathologist until changing his career. Lee's unique medical qualifications are an important part of his specialty, which is serving high net worth individuals seeking substantial life insurance policies. Lee is a well-known public speaker and educator for the legal and accounting professions including the American Law Institute/American Bar Association and the American Institute of Certified Public Accountants. He has written and published over 150 articles on the complex legal and technical aspects of securing life insurance for estate tax planning. His text book published by Thomson Reuters, *A Guide to Life Insurance Strategies*, is in its 11th edition. Lee has served as a director of the Association of Advanced Life Underwriters and the Estate Planning Council of New York. He is on the editorial advisory board of *Tax Hotline* and is a member of the CCH Estate and Financial Planning advisory board. Lee testified before the New York State Senate in 1990 and worked with the United States General Accounting Office on the effectiveness of the insurance company rating firms.

Lee lives in New York and East Hampton with his wife Dee. They have two grown children. He enjoys learning the Torah and Tanya (the spiritual roadmap of life based on Jewish mysticism).

## Sleigh, Kevin

Still enjoying work, and regarded as a "Senior Consultant" now

Looking forward to spending more time with Valerie in the coming years in the new home at Woodend, as I move to part time work, about 3 days a week would suit nicely with 3 months off in winter, to explore and live in various parts of the world while we can.

## Steward, Helen

Still working as a child and adolescent psychiatrist part time. Living with two grown up kids. All goes well.

## Taine, Matt

General Practitioner. Partner Karin.

## Tipping, Peter

General Practitioner, Wife Lib.

## Waxman, Bruce

Wife one: Jill 1972-1995, 4 kids: Janu (40) + 3 daughters, Amelia(32) + 1 son, Tom (20), Nicholas (27) married in April 2014.

Retired from RAN (SR- 14yrs) in 2014

## Wishart, Rob

I left Australia in 1978, likely in retrospect, because of PHHPTSD (Prince Henry's Hospital Internship Post Traumatic Stress Disorder). I left in search of a kinder, gentler speciality training environment with a fantasy of returning triumphantly a few years later as a paediatric specialist. I found the kinder, gentler training in Vancouver, Canada. A few years became thirty five. Why? Perhaps Nixos Zorba the Greek said it best... "Am I not a man? And is a man not stupid? I'm a man, so I married. Wife, children, house, everything. The full catastrophe!" Finally back home to stay, I am 8 months into reinventing myself as a 64 year old developmental paediatrician in an unfamiliar medical system and an Australia that that I'm just beginning to know again. The catastrophe stayed in Canada.

Rob with George Skowronek

## Don Hogan

Don died in 2013. We have not been able to find out much about Don after graduation. I do know however that he was the son of a greyhound Breeder from Tyngong in Gippsland. Don had a number of entrepreneurial clinics in the Eastern suburbs of Melbourne.

## Bruce Osbourne

Dr Bruce Osbourne was born on 23 February 1951 and grew up in Dandenong. He graduated from Monash University in 1975, and received his Bachelor of Medical Science in 1974. He achieved Fellowships in three disciplines—general practice in 1980, medical administration in 1987 and psychiatry in 2001.

Bruce worked in country hospitals, joined the RACGP program, and started in General Practice in Warragul.

From 1982-1984 he was Medical Superintendent at Latrobe Valley Regional Hospital, Moe. In 1984 he became Deputy Medical Superintendent at the Austin Hospital, Melbourne.

In 1987 Bruce returned to General Practice in Moe and then Warragul, and became Medical Director at West Gippsland Hospital.

Bruce began training in psychiatry in 1996 while continuing in part-time general practice. In 2002, after completing formal training in psychogeriatrics he became Consultant Psychogeriatrician at Latrobe Regional Hospital, Traralgon and subsequently Director of Mental Health. As Associate Professor of Psychiatry at the Gippsland Campus of Monash University Bruce developed the psychiatry syllabus and supported overseas trained doctors seeking Fellowship in psychiatry.

In 2009 Bruce took up a position at the Peter James Centre and remained committed to care of the elderly and to teaching. He continued to treat patients in Warragul, teach psychiatry at Monash, Gippsland campus and consult at the Drouin memory clinic. Bruce was a man of many interests including cricket and golf.

Bruce and his wife Sue's three daughters are Amy, Ruth (both medical practitioners) and Claire (a teacher).

In early 2012 Bruce was diagnosed with mesothelioma, and died in July 2012. Bruce is sadly missed by his family, medical fraternity and the community in which he gave so much.

## Dr Timothy Jeffrey Sutton

Dr Timothy Jeffrey SUTTON ('68) was born at Elizabeth Bay, New South Wales on 25 July 1949, the son of Old Melbourne and music store manager Jeffrey Alfred Sutton (MGS 1925-32). He attended Knox Grammar School, Sydney before attending Scotch from 2 June 1964 to 1968.

Tim was a member of the 1965 Athletics team, the premiership 1967 1st XV, and was 1968 Vice-Captain of the 1st XV. He was a 1968 Probationer and Dux of English. Tim entered Monash University in 1969 and graduated from Medicine in 1975. On 11 December 1974 he married Kaye Lorraine Griffiths at Scotch. Their son Guy attended Scotch from 2004 to 2005 as a boarder.

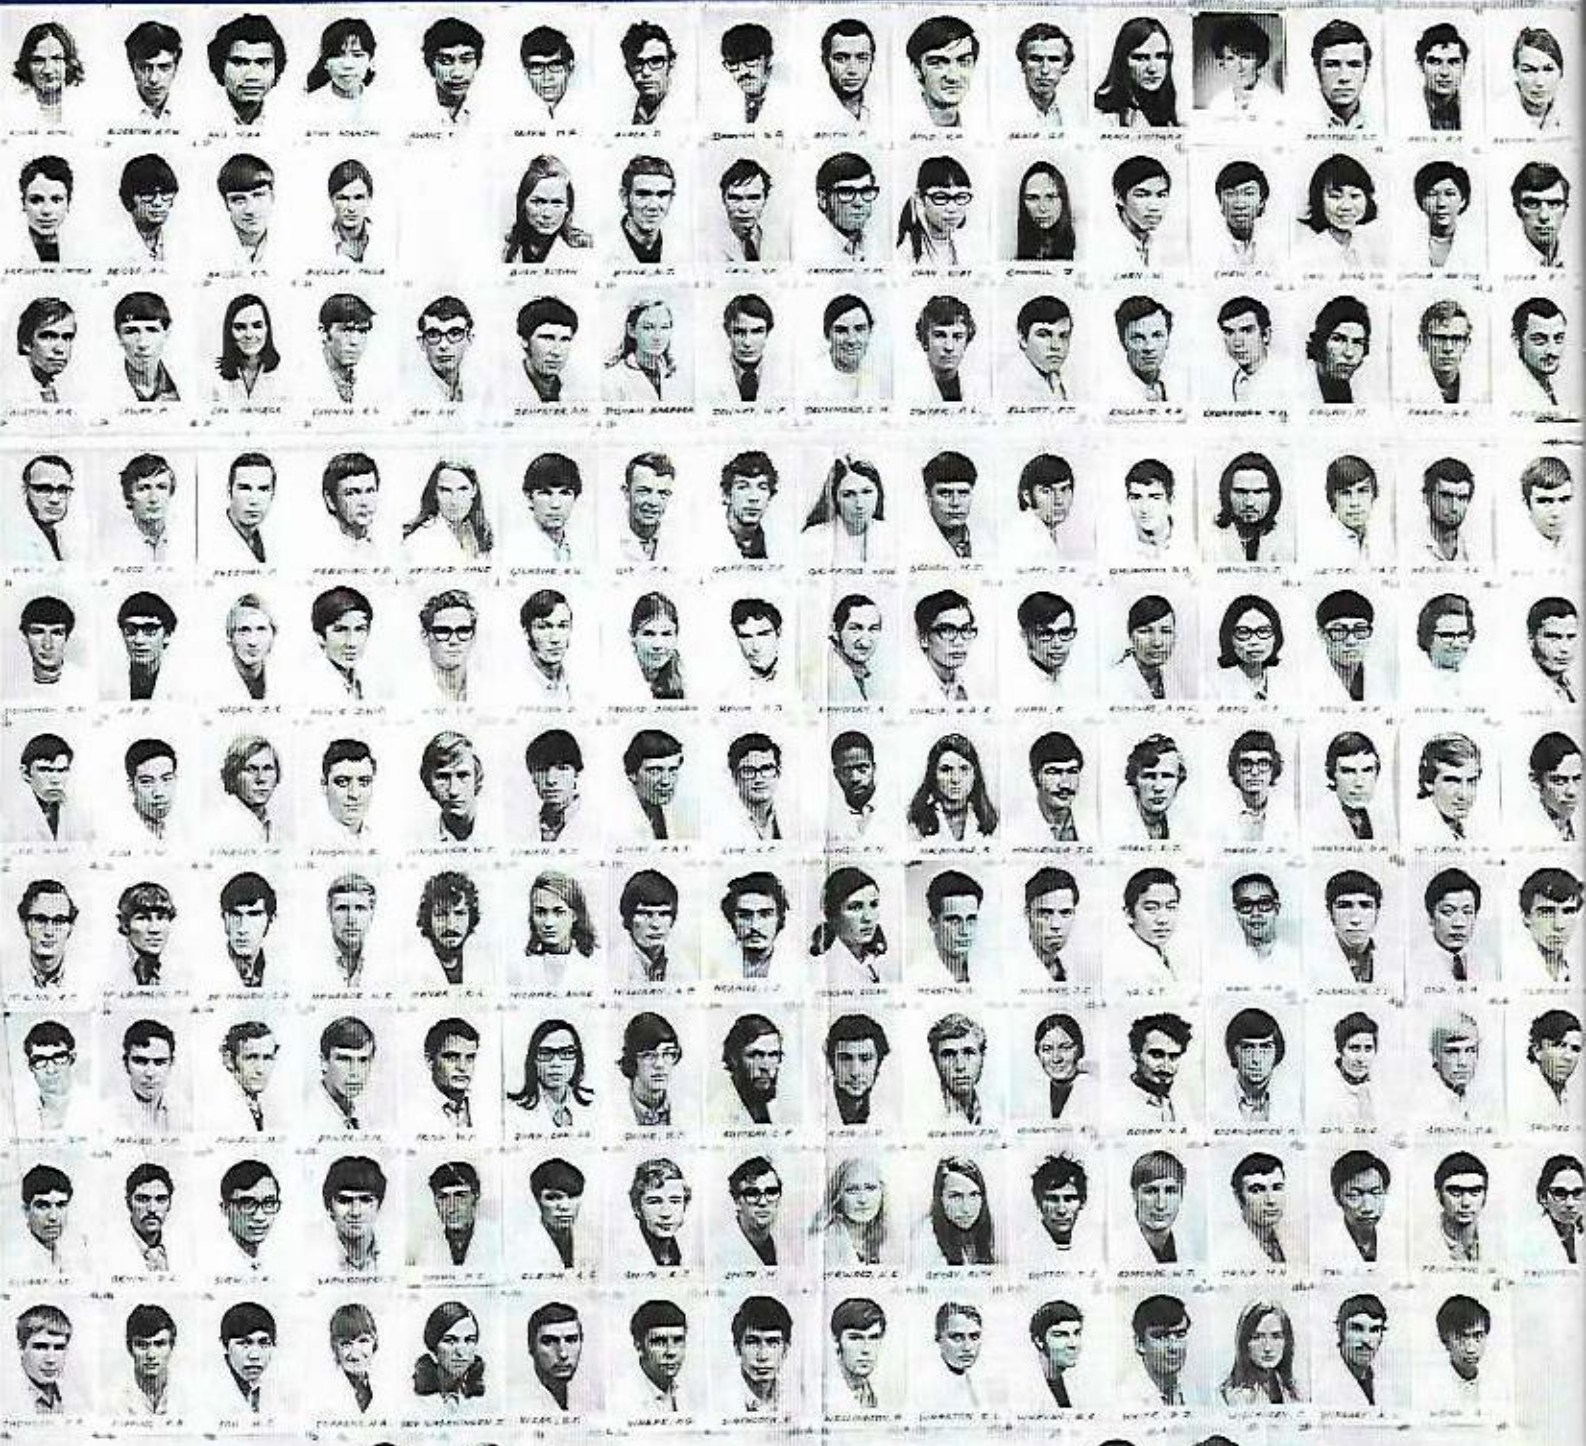

Tim worked in Prince Henry's Hospital's surgical programme before transferring to gynaecology and obstetrics. With Kaye who had a year of obstetrics training in the United Kingdom, he spent four years completing his O&G. After doing an obstetrics locum at Devonport, Tasmania, the family remained in Tasmania with Tim mostly working as a consultant at Launceston. Keen to help those who could not have children, he began an IVF programme.

He chaired the Tasmanian State Royal Australian College of Obstetrics and was statewide director of obstetrics, gynaecology and paediatrics. In 1999 cancer forced Tim to retire from obstetrics practice. Facing death, he questioned the meaning of life and in 2002 completed an honours degree in Philosophy at the University of Tasmania.

He began attending church weekly, and on returning to Victoria in 2006 joined St Cuthbert's Presbyterian Church, becoming secretary and treasurer of its board of management. Tim died at Cabrini Palliative Care, Prahran on 4 May 2014.
